# Vibratool - PC software installation guide

### 7.

Restart the computer if prompted.

Click Restart.

The Vibratool Icon has been added to your desktop, and the program is ready to be used.

### 8.

It is possible to open the Vibratool PC software multiple times, to compare measured data.

This will need a small change in the file "Vibratool.ini". Here is what to do and how to do it:

Right-click the Vibratool Icon and select "Proporties". Make a note of the foldername where "Vibratool.exe" is located.

The location varies depending of your version of Windows.

### Locate the Icon for "Notepad" in Start - All Programs - Accessories. Right-Click the Icon and select "Run as administrator".

In Notepad open the file "Vibratool.ini" located in the same folder as "Vibratool.exe".

Add the line "AllowMultipleInstances=True" without quotes. (Not case sensitive)

Save the change and close notepad.

💭 Vibratool.ini - Notepad 📃 🖃	8
